The Applicant Guide to Supervised Practice is the most up-to-date reference available detailing Dietetic Internships, Coordinated Programs in Dietetics, Individualized Supervised Practice Pathways (ISPPs), and Future Education Model Graduate Programs (FEMGPs). The majority of accredited programs (281) participate in the *Applicant Guide*; however, additional programs can be found at the end of the *Table of Contents* and the links below.

Dietetic Internships (DI)

<http://www.eatrightacend.org/ACEND/content.aspx?id=6442485424>

To apply to a DI, individuals must complete at least a bachelor's degree and ACEND-accredited coursework requirements (Didactic Program in Dietetics). Currently all DIs must provide at least 1200 hours of supervised practice. This is usually completed in 8-24 months depending on the availability of a part-time schedule or requirement of graduate credit. Individuals completing the program, who are verified by the program director, are eligible to take the CDR Registered Dietitian Nutritionist credentialing examination.

Appointments to DIs are awarded on a competitive basis and most use a national computer matching process. Some programs not participating in computer matching accept applications only from individuals employed by the sponsoring organization. Prospective applicants should review program websites for the most up-to-date information, including application deadline dates. Program websites provide detailed information on program requirements, tuition, and financial aid.

Coordinated Programs in Dietetics (CP)

<http://www.eatrightacend.org/ACEND/content.aspx?id=6442485421>

Currently, CPs must provide the required dietetics coursework and at least 1200 hours of supervised practice within an academic program leading to a bachelor's or graduate degree. Graduates of Coordinated Programs, who are verified by the program director, are eligible to take the CDR Registered Dietitian Nutritionist credentialing examination. Prospective applicants should review program websites for the most up-to-date information, including application deadline dates. Program websites provide detailed information on program requirements, tuition, and financial aid.

Individualized Supervised Practice Pathways (ISPPs)

<http://www.eatrightacend.org/ACEND/content.aspx?id=6442485529>

ISPPs were developed, along with preceptor recruiting efforts, to give applicants more options for educational experiences that will make them eligible to take the CDR Registered Dietitian Nutritionist credentialing examination. The Accreditation Council for Education in Nutrition and Dietetics' (ACEND) policies for ISPPs allow 1) graduates who did not match to a dietetic internship, but who possess a DPD verification statement, 2) individuals holding a doctoral degree without a DPD verification statement to apply for an ISPP; however, eligibility requirements and options may vary by program. One can see which Dietetic Internships, Coordinated, or Didactic programs currently offer ISPPs by visiting the link above. Doctoral degree holders without a DPD verification statement must attend an ISPP that is approved to offer a track for individuals with a doctoral degree. Applicants interested in applying to an ISPP should research the eligibility requirements of the programs to which they intend to apply, including whether one is required to locate one's own preceptors. Individuals with work experience should also inquire whether the program grants credit for specific competency requirements through an assessment of prior learning.

Future Education Model Graduate Programs (FEMGPs)

<https://www.eatrightpro.org/acend/accredited-programs/future-education-model-graduate-program>

All FEMGPs are offered at the graduate level and provide the required nutrition and dietetics coursework and supervised experiential learning to meet ACEND's competency requirements to be eligible to become a Registered Dietitian Nutritionist (RDN). A verification statement is issued to individuals who successfully complete the program in order to be eligible to take the CDR Registered Dietitian Nutritionist credentialing examination.

 Neonatal Leadership Indian Health Military Skills Surgery Private Practice/Entrepreneur Retail Non-Profits
Other: Interns select own rotation or site to learn to lead/manage real-world nutrition projects

OTHER IMPORTANT PROGRAM INFORMATION:

GGDI provides teaching and learning opportunities equitably to interns. It's an ethical, caring and reflective program that encourages discussions, feedback, and solutions from its interns. It is the only DI program certified as a green business.

The competition and stress lies in the acceptance process into a program. GGDI would like to accept everyone. Whether accepted or not into any program, it's best to stop worrying after this process.

Everyone at GGDI works towards the same mission to, "Develop culturally sensitive and proficient leaders in nutrition and dietetics who identify needs and opportunities to

OTHER IMPORTANT PROGRAM INFORMATION:

The USC UCEDD dietetic internship began as a 6 month post graduate experience. Over the years it was converted to an AP 4 program until it gained accreditation as an internship in 1999. We have been training interns to become leaders in the area of pediatric nutrition and developmental disabilities. Interns have an opportunity to actively participate in research and policy.

OTHER IMPORTANT PROGRAM INFORMATION:

Tuition information is based on CSUS current tuition information for post-baccalaureate students. Fees are subject to change for the Dietetic Internship year 2019-2020. We look for someone who is self-motivated, professional, has strong communication skills, dependable, independent but works well in groups, and enthusiastic about the field of dietetics and nutrition. We will have an Open House on Monday January 14, 2019. Check the website for details.

OTHER IMPORTANT PROGRAM INFORMATION:

Typical accepted applicants have a strong DPD GPA, significant work/volunteer experience in dietetics or another area that would provide transferable skills relevant to an internship, and strong interpersonal and communication skills. Interns that are mature, motivated, flexible, interested in learning, and have strong time management, interpersonal, and organizational skills are most successful. A car is required. A one hour commute each way can be expected as the norm in the Bay Area.

OTHER IMPORTANT PROGRAM INFORMATION:
 There is no tuition for this program. Interns are full-time employees in local boards of health working in the Georgia WIC Program at the local agencies. Interns complete 24 hours of supervised practice per week and work 16 hours per week in WIC. They receive their full salary and benefits while in the internship program and commit to a two year service payback to the local agency/board of health WIC Program after completing the program.

OTHER IMPORTANT PROGRAM INFORMATION:

Although our emphasis is community nutrition, we have a great well-rounded program that you are not limited to community nutrition related careers upon graduation. Our interns have secured positions in clinical dietetics including pediatrics and oncology, teaching at universities, directing school nutrition programs, corporate wellness, and in management. And, you'll graduate with an MS degree, which will be just one more feather in your cap!

OTHER IMPORTANT PROGRAM INFORMATION:

Rush University Medical Center, is located just west of downtown Chicago. Rush is a large tertiary medical center and consistently included in published lists of outstanding hospitals. The dietetic internship offers over eighty percent of the supervised practice at Rush. The faculty consists of 22 dietitians (not all full time) who hold MS degrees and 4 PhDs. The faculty to student ratio is over 2:1. Rush uses the teacher-practitioner model which means that the program faculty are also the practitioners in the department. Rush graduates have maintained one of the nation's highest pass rates for first-time takers on the RD exam.

OTHER IMPORTANT PROGRAM INFORMATION:

The applicant should be prepared for a very rigorous Medical Nutrition Therapy emphasis program with significant time and study demands that are necessary for program-required assignments, projects, and activities beyond the scheduled 40 hour work week. High standards for performance and exceeding expectations for achievement of skills required to meet supervised practice competencies as well as program goals and objectives are hallmarks of this dietetic internship. Strong written and verbal communication skills, as well as strong organizational skills, are also necessary to successfully complete the program.

OTHER IMPORTANT PROGRAM INFORMATION:

We accept nontraditional students. We include field trips to a commercial bakery, family dairy farm, commercial dairy processing plant and a major food systems vendor. Interns design their own capstone experience (final four weeks) which requires faculty approval. The capstone experience maybe in medical nutrition therapy, food systems management or community nutrition.

OTHER IMPORTANT PROGRAM INFORMATION:

You can be placed anywhere in the state of Kentucky for any of your three different rotations. These placements are decided based on your professional interests to individualize your experience and set you up for your career after the internship. We do our best with these placements however there is no guarantee you are placed where your first interest is. Housing is found and funded for you if you are placed outside of Lexington, KY and/or most of Louisville, KY.

OTHER IMPORTANT PROGRAM INFORMATION:

The Boston University MS/DI program combines one year of academic study resulting in a MS in Clinical Nutrition followed by a 29-week DI program. The MS program will prepare you to critically evaluate and implement the results of current research, solve problems, and communicate effectively. You will study with faculty involved in research, education, administration, professional practice, communication, and consulting.

As part of your program, you will develop a research proposal and complete an individually designed practicum. Practicum sites include a variety of specialties such as a one of kind, on-location, thriving university clinic and private practice, growing university sports nutrition practice, an eating disorders clinic, a nutrition support team at a large urban hospital, a private practice focused on nutrition for athletes, a clinical research center at a large teaching hospital, an outpatient cardiovascular clinic at a suburban

OTHER IMPORTANT PROGRAM INFORMATION:

We are a rigorous clinical dietetic internship with a heavy emphasis on nutrition support, MNT and research. We strongly encourage any prospective intern to attend a tour/open house to meet the Director and/or Associate Director and current interns to gain a sense of the program. Tours are held Fridays at 2 pm from November to January. To reserve your spot for a tour, please contact Jenica Abram, Associate Director, at jabram@bwh.harvard.edu.

OTHER IMPORTANT PROGRAM INFORMATION:

A car is not required, but is strongly encouraged to allow us maximum flexibility in placing interns in best fit rotations. Rotations may occur in a 20 mile radius with some consideration for where the intern lives. We have two information sessions. Dec. 6th at 4:00 and Jan. 3rd at 4PM. Please email Leah Smith at leah.smith@simmons.edu if you plan to attend. We do not give tours as all our rotations are away from the college throughout the greater Boston area.

Strong preference is given to MSDI students for entry into the Treatment of Eating Disorders Concentration. Application to the treatment of eating disorders concentration occurs as an internal application after being matched to the Simmons DI programs. Interested applicants should indicate interest in this concentration in their application essay.

OTHER IMPORTANT PROGRAM INFORMATION:

Our program has >2000 hours of training. There are numerous opportunities both within the context of the program as well as outside of the program. Our most successful students are those those have strong time management skills and can prioritize their workload. Hospital experience prior to starting our program is helpful (work or volunteer experience).

OTHER IMPORTANT PROGRAM INFORMATION:

Wellness Workdays offers a unique distance education based program, designed to meet the individual needs and interests of a group of dynamic, inspiring individuals seeking to become Registered Dietitians with a focus on worksite wellness and health promotion. The WWDI allows interns to complete their supervised practice requirements in their local setting using sites and preceptors of their choice. Part-time and full-time options are available. Prospective interns are required to find qualified preceptors in the areas of clinical nutrition (400 hours), long-term care (80 hours), food service management (200 hours), community nutrition (240 hours), elective (40 hours) and concentration area (240 hours) to complete their requirements. WW is available to help you locate these individuals. We have three unparalleled concentrations that address the major health issues currently facing our country.

OTHER IMPORTANT PROGRAM INFORMATION:

The internship preceptors are a strong, committed group of nutrition professionals who provide one-on-one mentoring to the dietetic interns. Students can focus their graduate program on human nutrition, food science or a combination of the disciplines. The internship concentration area is Nutrition Services and Professional Advocacy. The area has been designed to integrate an understanding of the relationship between developing and delivering nutrition services and becoming an advocate for those services, the dietetics profession and oneself as a dietetic professional.

Other:

OTHER IMPORTANT PROGRAM INFORMATION:

Our area of Concentration is working with Rural and Disadvantaged populations. Students get a rich experience in working with underserved groups of people, including minority populations. Courses are taught by outstanding faculty with national and international reputation. We are a strong research institution and students get superb research exposure and experience. Our students become part of our family for 2 years, we have very high standards but also support you and help you succeed. If you have a passion for serving communities and making a difference among disadvantaged groups of people, we are the program for you!

ESTIMATED COST OF LIVING:

OTHER IMPORTANT PROGRAM INFORMATION:

We provide an optional Master of Science in Nutrition and Dietetics with an emphasis in Population Health. This is a 2-year combined MS and DI.

Additionally, interns will choose Rural Health or Public Affairs as their area of concentration by December and develop a 6-week rotation in that concentration area with guidance of the Internship Director. Interns have an optional international experience where they can complete supervised practice rotations in another country during spring break, part of the 6-week rotation that the intern develops, or over the summer semester.

Other:	Advanced Food prep training, Computerized charting, team Research					

OTHER IMPORTANT PROGRAM INFORMATION:

The majority of patients seen in clinical supervised practice settings are adult males and some females. We do not provide a clinical pediatric rotation. Our Program is 100% hands-on, on-the-job training; no simulations, limited shadowing. Interns are completing computerized chart notes on patients within 2 weeks of arrival under the guidance of the RD preceptor. Our Program is fast-paced with most rotations lasting two weeks. Interns have preparation homework for each rotation. They also work on a variety of individual and team projects and medical center activities simultaneously throughout the Program. Strong organizational, time-management and multi-tasking skills are required. Interns must also have solid interpersonal skills, including reading, writing, and verbal communications.

OTHER IMPORTANT PROGRAM INFORMATION:

Montana Dietetic Internship (MDI) Non-Degree Graduate Dietetic Internship: The Department of Health and Human Development at Montana State University (MSU) offers a non-degree graduate dietetic internship. Interns typically began the end week of July or the first full week of August and graduate by the first weeks of June. The MDI program participates in the spring computer matching period for dietetic internship appointments. MDI integrates experiences in clinical and community nutrition, foodservice management, and a concentration in sustainable food systems to provide a unique and progressive supervised dietetic practice experience to future registered dietitians. The MDI Program meets the Accreditation Council for Education in Nutrition and Dietetics Competencies for preparing knowledgeable professionals in the practice of dietetics. The MDI Program activities include 1,315 hours of supervised practice in various clinical and non-clinical settings, a 36 week on-line didactic course to support supervised practice learning, and 12 non-degree graduate credits. In addition to completing practice experiences at Montana State University (MSU)-Bozeman, interns will be

OTHER IMPORTANT PROGRAM INFORMATION:

Coursework is integrated with supervised practice experience. Master of Medical Nutrition degree program (50 semester credit hours total) is 4 consecutive semesters over 1.5 years (August 2018-December 2019). Tuition is flat-rate rather than per semester credit hour. As a Future Graduate (FG) Program, direct application to UNMC is required with application deadline of November 26, 2018 for August 2019 entering class. We will not participate in computer matching.

OTHER IMPORTANT PROGRAM INFORMATION:

The program is a combined MS in Nutrition and Dietetic Internship Program. Students complete MS in Nutrition coursework on-line during the first year of the program and the supervised practice component the second year. While students can live anywhere when completing the on-line coursework, supervised practice is not offered as a distance program. Students must live in the designated geographic area (approximately 2 1/2 hours radius of the program). Acute care clinical will be completed in Morristown and Summit NJ for all interns. Other rotations will be closer to residence of student.

OTHER IMPORTANT PROGRAM INFORMATION:

All didactic coursework is online. Students complete 3, 3-day workshops on the Rutgers SHP Newark campus in March, May and December. Students apply to either the local (Rutgers NJ sites) or remote track for Supervised experiential learning (SEL). Remote track refers to sites greater than 100 miles from the Rutgers SHP Newark campus. Remote sites include: Indianapolis, Las Vegas, Madison WI, Lebanon and Wilkes Barre PA, and West Palm Beach FL, All clinical sites are obtained by Rutgers for the students.

OTHER IMPORTANT PROGRAM INFORMATION:

IMPORTANT - Deadline for complete DICAS computer-match application including references and transcripts is JANUARY 15. Application fee is in addition to any DICAS fees and should be sent to the Director at 108 Savage Hall, Cornell University, Ithaca, NY 14853 by the application deadline. Visit our website to register for the Open House on December 5, 2018. The Open House begins on the Cornell Campus in Ithaca and includes a visit to site of the clinical and management rotations at the University of Rochester Medical Center (two hours by car north of Ithaca). Transportation to and from Rochester will be provided those who register by the deadline. Participants in the Open House will have an opportunity for an individual meeting with the dietetics internship leadership.

OTHER IMPORTANT PROGRAM INFORMATION:

Although interns accepted to our program are automatically accepted into the graduate programs indicated above, they still need to fill out a separate application for their chosen graduate school. Many of the materials from the DICAS application can be used in this process. Again, graduate programs are optional. For students enrolled in the CWRU program, the two week research experience provided through the internship is substituted for coursework/research experience at CWRU. For both interns and graduate students, however, research practice is a year-long expectation.

OTHER IMPORTANT PROGRAM INFORMATION:

The 1st 11 months of the program involve internship rotations at the Louis Stokes Cleveland VAMC and graduate work at Case Western Reserve University. During the Dietetic Internship portion of the program, students take 8 graduate credits during the 1st semester and a minimum of 7 graduate credits during the 2nd semester while completing their supervised practice hours. Graduate classes are held on Mondays to allow intern to focus on supervised practice rotations Tuesday-Friday. The internship portion of the program is 11 months long and runs from mid-August to mid-July of the following year. The 3rd semester is devoted to full-time graduate studies at Case Western Reserve University to allow for completion of a Master of Science Degree in Nutrition.

OTHER IMPORTANT PROGRAM INFORMATION:

Many dietetic interns apply to graduate programs in the fall of their program year. In the last five years, our graduates have a 100 percent placement rate in graduate programs immediately following supervised practice. Applicants interested in a master's degree in human nutrition at Ohio State are encouraged to contact the internship program director for more information about how to bridge between the internship and graduate school successfully. Assistantships are available.

A doctoral-level degree is required to be eligible for ISPP.

OTHER IMPORTANT PROGRAM INFORMATION:

KADDI will divide its 66 available positions between full-time and part-time. We are likely to offer more appointments in the spring match because there are more applicants in DICAS at that time. There is no set number for part-time positions. In summer 2018 there were 20 part-time appointments. Part-time interns will be matched only in the spring.

Full-time program length is 32 weeks (3 weeks preorientation case studies done at home, 3.5 days orientation in Tulsa, three 8-week rotations (MNT, management, community), 4-week business and entrepreneurship rotation). Rotations may be done in any order.

OTHER IMPORTANT PROGRAM INFORMATION:

The Winthrop University dietetic internship program places each intern in specific geographical areas throughout South Carolina or parts of southern North Carolina to complete rotations; not all interns will live and rotate near campus during the two semesters of the program. Travel to sites within the geographical assigned area and to campus is required and at the expense of the intern.

OTHER IMPORTANT PROGRAM INFORMATION:

We have an open house, the first second Monday in June. It is advised to attend this in the junior year and to set up any meetings with the Director in the summer before starting the Senior year. We also advice students take the GRE the summer before their senior year, to allow time to retake if needed.

OTHER IMPORTANT PROGRAM INFORMATION:

Admission to the Lipscomb University Dietetic Internship Program is separate from admission to the University. Applying to the graduate school is not necessary as part of the application process for the dietetic internship until after the matching process has selected Lipscomb's interns for the upcoming program year. Applicants must meet the following criteria to be considered for admission to the internship program: Minimum overall GPA of 3.0 on a 4.0 scale, Verification Statement from an approved DPD program in dietetics, Nutrition courses must have been completed within the past 5 years, GRE scores equal to 300 combined without writing score. A selection committee evaluates internship applications on a competitive basis and determines the individuals to be interviewed. Nutrition related work experience is optimal, but all applications are graded based on equally weighted areas of individual DPD GPA, GRE scores, application letter, references, and work and volunteer experiences. Appointments to one of the three program concentrations will occur after matching; therefore, all applicants should accept the internship position if willing to complete all of the concentrations.

OTHER IMPORTANT PROGRAM INFORMATION:

Lamar University (LU) offers an 11-month Dietetic Internship Program for up to 10 highly qualified college graduates. Applicants who are matched to the program must provide documentation of DPND and/or degree graduation prior to the program start date in July. The Lamar University Dietetic Internship Program has an online Master of Science in Nutrition option available for dietetic interns who are fully accepted into the department graduate program. The program requires all interns regardless of degree status (post-bacc, master's, and post-masters) complete 21 hours of graduate credit. The 21 hours of graduate credit can only be applied towards the Master of Science in Nutrition degree from the department. More than 95% of dietetic interns opt to complete the Master of Science degree simultaneously with the dietetic internship requirements. The cost per credit hour for the graduate courses is \$275. The website for the optional MS in Nutrition is: <https://www.lamar.edu/lu-online/graduate/ms-nutrition/index.html>

OTHER IMPORTANT PROGRAM INFORMATION:

The Baylor University Medical Center Dietetic Internship Program's mission is to provide an atmosphere in which the dietetic intern can apply and augment the knowledge base acquired from the academic setting. The program strives to prepare qualified Registered Dietitian Nutritionists by imparting to each student the educational standards established by the ACEND. The applications of accepted principles of clinical, food service management, and community nutrition are taught on an individualized level. The interns also attend classes taught by physicians, dietitians, department managers, and guest speakers throughout the year to augment the intern's current knowledge and prepare the intern for hands-on experiences. This approach reflects the belief that this will result in graduates who are entry-level professionals who possess an advanced knowledge base, professional skills and an ability to think independently.

OTHER IMPORTANT PROGRAM INFORMATION:
The US Army Dietetic Internship is a joint MS/DI program, with the MS issued by Baylor University. All applicants must submit an application through DICAS in the FALL cycle (due mid-October) and work with an Army healthcare recruiter to complete the application to the internship. Applicants will match with D&D Digital in the SPRING cycle. The Baylor University application is completed at no cost after acceptance to the program. All selected applicants are commissioned as officers in the US Army and must complete 4 years of service following completion of the 2 year program, for a total time commitment of 6 years. Phase 1 (graduate coursework) is completed at Fort Sam Houston, in San Antonio, TX. Phase 2 (internship supervised practice) is completed at one of three sites (San Antonio, TX; Bethesda, MD; or Tacoma, WA).

OTHER IMPORTANT PROGRAM INFORMATION:

Application are accepted each spring and are due February 1. Decisions are made prior to April 1 for August start-date. The current 2-year CP will accept applications in spring 2019. Thereafter, students including incoming nutrition majors in fall 2018 and thereafter are eligible to pursue the 5-year Combined BS/MS in Dietetics instead of the current CP. This combined program offers students the unique opportunity to complete the required didactic instruction (lecture and laboratory courses) and supervised practice experience hours necessary to meet the Core Knowledge and Competencies for the Registered Dietitian Nutritionist as mandated by the Accreditation Council for Education in Nutrition and Dietetic (ACEND) of the Academy of Nutrition and Dietetics in five years.

OTHER IMPORTANT PROGRAM INFORMATION:

Our program is a cost-effective way to complete the MS and DI quickly (August 2019-December 2020). We are strongest in clinical specialties and research, and students have a substantial role in selecting their own rotations. In an exit survey 94% of graduates agreed that they got to rotate at some of their top rotation choices. All of our classes are specifically designed for the MS/DI students, so you will only be in the same class with other students who have a strong background in nutrition. All of our primary teaching faculty are experienced registered & licensed dietitians. Degree Plan and Specific SITE ROTATION OPTIONS: <https://shp.utmb.edu/nutr/msdi.asp>

Other:

OTHER IMPORTANT PROGRAM INFORMATION: Each year, the program obtains feedback from interns and preceptors. We use this information to improve the program. Therefore, it is likely there will be changes from year to year. The number of clock hours in each practice area, locations of rotation sites, and the stipend amount are all examples of things which can change. The number of interns accepted are also subject to change and this is based on available resources and funding. Please, visit our homepage often for the most up to date information. Appointments can also be arranged at other times. We understand the need to conserve resources and visiting the campus for a tour or Open House will not be a factor considering in the selection process.

ESTIMATED COST OF LIVING:

OTHER IMPORTANT PROGRAM INFORMATION:
 The School of Public Health Dietetic Internship Program is poised to lead a preventive health initiative in nutrition by creating a state of the art healthcare and education practice. Students are prepared to educate communities, families, and individuals. With enhanced facilities and collaborative opportunities within the Texas Medical Center and within UT Health, dietetic interns benefit from opportunities that enrich their academic curriculum. The addition of a demonstration teaching kitchen, MNT simulation classroom, and community garden will provide our students with hands-on experience and enable faculty to develop cutting-edge curriculum to augment the existing program.

OTHER IMPORTANT PROGRAM INFORMATION:

This program features a core of 50+ RDs at UVA Health System; most serve as preceptors in a variety of specialty areas. Our two Nutrition Support Teams are highly respected resources and offer training in their specialty areas to professionals from throughout the world. Our Pediatric Team functions extensively in the inpatient and outpatient arenas. The full team of preceptors and educators totals close to 75 committed professionals from a variety of backgrounds. Interns are trained at multiple state-of-the-art medical facilities, including the Emily Couric Clinical Cancer Center and the UVA Children's Hospital, known as the Battle Building. Our DI Program's focus is adult nutrition support and pediatric nutrition. Interns are required to complete a capstone project, which may be a research, clinical, community, or a qualitative research case study project. In addition, interns are required to participate in 4 separate community volunteer or presentation activities within the 10 months. Interns are required to give a class day presentation on a nutrition related topic of their choice using an interactive format. Interns also present their capstone project to other interns and project

OTHER IMPORTANT PROGRAM INFORMATION:

We offer a Masters of Public Health in Nutrition (MPH- Nutrition), a Masters of Science in Nutrition (MS-Nutrition) and a doctoral program in Nutritional Sciences (PhD-Nutrition) along with the Graduate Coordinated Program in Dietetics (GCPD). The GCPD plus the MS/MPH/PhD degree provides interdisciplinary graduate level training in nutritional sciences and the 1200+ hours of supervised practice necessary to sit for the RD exam. Applicants apply to the Nutritional Sciences Program for the degree, and to the dietetics program (GCPD) for the coursework and supervised practice. The UW School of Public Health is a Council on Education for Public Health (CEPH)-accredited program of public health. A research-based master's (MS/MPH) thesis or capstone, or dissertation (PhD) is required. After completing this program and passing the national exam, students have either the MPH RD, MS RD, or PhD RD credentials, respectively.

OTHER IMPORTANT PROGRAM INFORMATION:

Students must also apply and enroll in the ONLINE UW-Madison Capstone Certificate in Clinical Nutrition (12 hours of graduate education) or the UW-Madison M.S. in Clinical Nutrition Program, which includes the aforementioned Capstone Courses. Successful completion of the UW Health Dietetic Internship coordinated with the ONLINE Capstone Certificate Program or ONLINE M.S. Clinical Nutrition Program will provide graduate credits transferable to an MS degree pathway. Total program cost: 18 credits (\$14,400). Internship is on-site (UW Health, Madison, WI) during the fall and spring semesters.
