BESC 484— FIELD STUDIES ("The Internship Course")

What?

- It exposes students to a **professional** experience or research laboratory related to Bioenvironmental Sciences. Students can work with a company, government agency (local, state, national, international), or on a science-based project with a faculty member in a research lab. All experiences are *subject to departmental approval*.
- BESC 484 is a **REQUIRED** course for the BESC/ENST/USAL-ENB degree plans. It <u>must</u> be completed in order to graduate.
- BESC 484 aligns with a supervised **INTERNSHIP** or **RESEARCH** experience. The 484 course is *writing-intensive*, 3 credit hours, and taken over a full academic term (fall, spring, or 10-week summer).

When?

- Students applying for the 484 course must have a junior or senior classification, or instructor approval.

How?

STEP 1 Students identify an internship or research opportunity

- Examples from previous students
- Speakers from NAEP meetings
- Facebook pages for <u>TAMU</u>, <u>BESC</u>, and <u>NAEP</u>
- BESC Professional Board job board
- TAMU <u>Career Center</u>, and <u>Jobs for Aggies</u>

STEP 2 Students apply for BESC 484 approval

- For the semester associated with the internship or research experience
- Visit the department website to fill out the <u>BESC 484 Approval Form</u>
 - Applications are due two (2) weeks before the start of the semester
 - Review is done by BESC 484 approval committee

STEP 3 Students watch their official TAMU email for course instructions

- One to two weeks before the academic term begins, the academic advisor will register students with approved experiences into appropriate sections for BESC 484 and assign faculty
 - Once approved and registered, students must pay required tuition/fees for the course.
 - Students are instructed to contact their assigned faculty members for course syllabus, outline course expectations, and due dates.

STEP 4 Students engage in the BESC 484 course

- Communicate 484 expectations to supervisor, and complete work as assigned by instructor
- All 484 assignments will be submitted electronically— there is no physical class. Use of e-mail or eCampus is currently at the discretion of assigned faculty members.
