

Candice Boeck received a Bachelor of Science degree in Bioenvironmental Sciences from Texas A&M University in 2004 and began her career in the environmental industry. Candice has 10 years of compliance work in various industries, such as, environmental, health & safety and pipeline safety. Candice is the Senior Compliance Specialist for Cyera Strategies, a pipeline & utility consulting, public affairs and community relations firm specializing in American Petroleum Institute (API) Recommended Practice (RP) 1162 compliance activities, and she provides compliance support at the federal and state level. She supports clients with program management, evaluation, planning, audit preparation, DOT compliance programs and state-specific requirements. She also leads Cyera's environmental, health and safety practice focusing on OSHA and EPA requirements.

Recently, in the past 3 years, she administered and implemented a Public Awareness Program for Enable Midstream, an oil and gas pipeline operating company covering 11 states (formerly known as CenterPoint Energy Transmission & Field Services and Enogex). She was the lead of the Intergradations Team to combine both company's Public Awareness Programs. She has lead several state audits and received satisfactory ratings. She is also 40 Hour HAZWOPER (Hazardous Waste Operations and Emergency Response) trained. She has managed spill response teams, natural disaster response teams for Hurricane Katrina, and various safety programs. She has also been involved with creating health & safety plans, managing safety requirements for emergency response field personnel, and assisting with near miss and incident related programs.

Candice is a member of American Petroleum Association, Southern Gas Association, Louisiana Gas Association, Common Ground Alliance, and Interstate National Gas Association of America.
