

Lisa Olson Murphy, PE

Texas Board of Professional Engineers (No. 65546)
TCEQ LPST Project Manager (No. PM0000301)

EXPERIENCE SUMMARY

Lisa Olson Murphy, PE has over 31 years of experience in regulatory permitting. Prior to the acquisition of Hill Country Environmental by EORM in June 2015, Ms. Murphy performed project management and engineering for all HCE projects since its inception in 1992. As an EORM consultant, she provides project and client support in areas of her expertise. Ms. Murphy has significant experience in all areas of environmental permitting and compliance and specializes in providing risk management and permitting strategies for developing projects. She provides expert witness testimony and litigation support in lawsuits and contested permit hearings. She participates with and leads auditing teams, providing expertise with air, wastewater and waste regulations. Prior to founding HCE, Ms. Murphy worked as an air permitting project manager for Environmental Consulting Associates for two years and as a staff engineer and hydrologist at the Texas Commission on Environmental Quality's predecessor agency for seven years where she performed water quality modeling / permitting and RCRA permitting. She graduated from Texas A&M University in 1984 with a BS in Civil Engineering in 1984 and is a licensed Texas Professional Engineer.
