# OPEN SOURCE FOR OPEN SCIENCE COMPUTATIONAL WORKSHOP 2024

OSOS is a free two day workshop which introduces participants to the use of free, open-source tools for data analysis, statistical analysis and visualization, particularly via the statistical programming language R. No previous experience with programming or statistics is required or expected. Graduate students can earn 1 credit hour by registering for EEEL 612 for the Fall 2024 semester. Open to all (faculty, staff, students). **Please register to attend.**
