

# Water Education Through Service Learning

## Investigation

Determine the impact, scope, and source of the problem

STEP  
01

STEP  
02

## Preparation

Develop a plan on how to address water related issues

## Action

Adults should provide guidance while allowing young people to learn by doing

STEP  
03

STEP  
04

## Presentations

Present project successes to an audience that includes community decision-makers

## Reflection

Reflect the impact they had on promoting, protecting or enhancing water resources

STEP  
05
